Anonymous Free/Reduced Eligibility Identification Builds participation

## ScholarChip® Cafeteria Point-of-Sale

Using the ScholarChip® Class A data center to process your district's food service transactions and on-line payments enables you to increase profitability and productivity. All transactions flow to our single collection point achieving centralized school food service management and reporting. Student participation increases by using our fast, secure and anonymous account access and secure at-home application processing. Staff productivity increases using our cashier-friendly terminals.
