### Advantages:

Secure communication platform for the safety and convenience of members

Quick set up and maintenance

Interfaced with the ScholarChip Smart Contactless Card, Payment Platform and Attendance System

Cost efficient fee-based system

## ScholarChip® Notification System

The need for instant mass notification is critical to the safety and operation of most institutions with diverse members and a large physical plant. The ScholarChip® notification system is an integral part of the ScholarConnect platform. It provides member institutions with the means to alert all members within minutes via a combination of telephone, email, text messaging and the ScholarChip wall-mount Kiosks.
