

Scholar Refund Advantage

Students quickly and easily pre-enroll and validate their bank account. The school sends the disbursements electronically. The ScholarChip proven "PennyNOC™" validation eliminates wrong accounts and lost funds.

Once the student registers the account, Scholar Refund provides e-notifications when refunds are deposited. Students are provided with online access to the Scholar Refund portal to track their refunds.

Scholar Refund easily integrates with your existing accounting/IT infrastructure, providing your school with a centralized, web-based system. There is no need for local servers or local resources to continually monitor systems. ScholarChip supports and monitors all systems remotely and proactively, 24/7.

The ScholarChip extensive Web Services API provides ready integration with all e-Campus portals.

With Scholar Refund, you will realize immediate savings to your bottom line, saving on mailing costs and soft resource dollars associated with maintaining a paper-check refund system.

Student Benefits

Fast and Easy Enrollment

The student's one-time online enrollment and bank account validation makes processing student refunds fast and easy.

Immediate Access to Funds

Direct Deposit of ACH Refunds means no more waiting for checks to clear.

No Waiting in Lines

Students will no longer need to wait in lines in your offices to receive their checks.

No Lost Checks to Contend With

Since checks are eliminated, there is no concerns about replacing lost checks. Students are provided with an email confirmation once their refund is deposited.

ScholarChip® Scholar Refund Solution

No longer do students have to stand in line to receive their refund checks or wait for funds to clear... Scholar Refund provides schools with an economical, PCI-compliant, web-based solution which disburses ACH refunds directly to student's bank accounts or ScholarChip card purse.
