

## Have you ever wondered if a student sent to the nurse or library made it there?

With SALA, you can stop wondering. ScholarChip's Student Ad-hoc Location App provides a digital trail of student movements to ensure accountability and enhance safety across your campus.

### Why Choose SALA?

- **Ensure Accountability:** Stop hallway wandering by knowing exactly where students are.
- **Improve Safety:** Monitor student movement during and after school.
- **Save Time:** Eliminate paper-based sign-in sheets and manual tracking.
- **Support Data-Driven Decisions:** Gain insights with exportable reports to manage resources effectively.

## Key Features

### Tap to Acknowledge:

Students tap their ScholarChip-issued ID card at any location with a ScholarChip reader to log their presence.

### After-Hours Tracking:

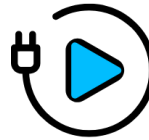

Extend monitoring beyond school hours for after-school programs, detention, or clubs.

### Real-Time Monitoring:

Instantly view student activity in out-of-class locations such as:

- Nurse's Office
- Guidance Office
- Main Office
- ISS (In-School Suspension)
- Library
- Detention, Tutoring, and Extracurricular Activities

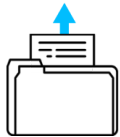

**Easy Setup:** Connect a ScholarChip USB reader to a location laptop, create or select a location in the SALA portal, and you're ready to go.

### Seamless Integration:

SALA integrates with ScholarChip's classroom attendance system for teacher acknowledgment.

**Quick Reporting:** Export location data in one click via Copy, CSV, Excel, PDF, or Print.

## How It Works:

1. Login to the SALA web portal.
2. Connect a ScholarChip USB reader to your location's laptop.
3. Create or select a previous location.
4. Allow students to tap in and out of the location.
5. Monitor all out-of-class or after-school students in real time through the SALA monitoring tab.
6. Export data easily for tracking or reporting.

## Make Real-Time Monitoring Easy for Your School
